

Will cool people ever again visit Israel?

By Clemens Heni, Ph.D., March 3, 2021

This article was censored by the Times of Israel (Blogs), indicating the new antischolarly, antidemocratic 'normal' in Israel

The German National Health Institute, the Robert Koch-Institute (RKI), is part of the huge and unprecedented panic industry of the leading European country. Ever since March 2020 they have promoted Corona as a huge threat to the entire society. They promoted a fatality rate of over 4 percent in many months in 2020 – which has nothing to do with reality. The Infection Fatality Rate (IFR) in the overall population will be around 0.2 percent.

However, there are a few at least part-time serious researchers at the RKI. On February 12, 2021, a few leading researchers at the RKI published an article about Corona and excess mortality. This article, too, was intended to promote panic. The article says that on average, every Corona victim lost 9.6 years of life. That results in some 300.000 lost years.

A Swiss research team from the University of Bern, however, already estimated in spring 2020 that Germany will lose some 17 million years of life due to the unprecedented and draconian measures taken during this unbelievable political (and not medical) crisis. 17 million years lost, base on three months of lockdown. Now we have more than six months of lockdown in Germany, and many businesses have almost 12 months of lockdown, like theaters, clubs, the music industry, football and all sports etc.

However, that article of the German Robert Koch-Institute has

some insights worth quoting. The main sentence of that article reads like follows:

The analysis of excess mortality, though, suggests that at the end of the year 2020 the COVID-19 pandemic has reached the level of severe Influenza waves.

(Translation by the author). The original German reads: "Die Analyse der Übersterblichkeit legt aber nahe, dass die COVID-19-Pandemie am Ende des Jahres 2020 etwa das Niveau schwerer Influenzawellen erreicht hat."

Israel is currently promoting the most disturbing biopolitical campaign in its recent history. Only vaccinated people will have the right to go to shopping centers, restaurants, night clubs or perhaps even only vaccinated people may travel via Ben-Gurion.

In a video by Orit Arfa about the current vaccination situation in Israel, she interviews a representative of a night club, who enthusiastically says that young people will all be vaccinated, as soon as they learn that they won't be allowed into the club without being vaccinated. He is happy about that threat!

In reality, Corona is nothing but a severe flu. Period. That is what the leading German National Health Institute says. Everyone who claims that Corona is a once in a century disaster, has completely lost her or his mind. In the history of Public Health there has never been the policy to quarantine an entire society. Nor has there ever been the policy of testing healthy people. Just read the history of Public Health.

The Influenza in 1969/70 in Germany had an infection fatality rate of 0.29 percent, according to the Robert Koch-Institute. According to the WHO, Corona has an infection fatality rate of 0.23 percent. COVID-19 a once-in-a-century-disaster? Are you

kidding me?

Based on recent poll by Bertelsmann, some 34 percent of Germans have no intentions to be vaccinated, many intellectuals, businesspeople and scholars, medical practitioners among them.

This may well include cool, anti-BDS and Zionist people as well. These people will never again be able to visit the Jewish state as free people, if Israel will stick on these irrational and antidemocratic vaccination policies. These policies, to be sure, are against Resolution 2361 of the Parliamentary Assembly of the Council of Europe from January 27, 2021.

Israel will discriminate its own population, to be sure. At least 10 percent of the more religious and Haredi population might be reluctant to get vaccinated, for what reason ever. The Pfizer vaccine is not a "real" vaccine, it has only emergency approval, as we all know. It has not been tested for the old, for people with high blood pressure, for people with diabetes etc. Everyone can take it, of course. But Israel wants to make it mandatory. And that would be the end of democracy.

That would also mean that cool people, who would never ever have vaccinated against seasonal flu – and Corona is seasonal as well, this is not a measles vaccination which holds for many decades if not your entire life -, will never ever be able to visit Israel again.

You will have open night clubs. These clubs will have a 100 percent homogenous group of people: all will be vaccinated. This is neither cool, nor democratic. It is result of the irrational, antidemocratic and not evidence based policies of Benjamin Netanyahu.

The lockdown policies already killed 2.5 million women and children and men in the South, mainly in Africa, according to

a Swedish paper. The closure of schools might be fun for people who are obsessed with health and irrationality in Israel, or those (ironically that might fit some Haredi as well) who prefer homeschooling over schools. But in Africa these lockdown policies are deadly. Children have no longer access to a real meal, and they are no longer protected against violence of all kinds.

Without vaccination, not a single child or teenager died in Sweden, 1.8 million kids went to school, no lockdown, no masks, no vaccination. And they all had no problem, because Corona is a pandemic of the old and very sick. Everyone who claims that Corona is a threat to the entire society, has lost his or her mind.

The current vaccination maniac in Israel is proof that democracy is pushed aside, and biopolitical surveillance policies have finally taken over the entire world, following the totalitarian Chinese model. This is no conspiracy model at all, this is just a description of what happens. The above linked video about Israel and vaccination clearly shows the pride of some Israeli in their health system – mainly based on surveillance.

What is most disgusting in my view, is the fact that so many pretend to be in solidarity with the frail and old and sick, and therefore they follow lockdown, mask mandates and vaccination maniac. In fact, these people are among the most anti-social people in the history of the world in recent decades – they ignore all deaths due to despair, economic and social collapse, and they ignore the millions of deaths in the southern countries in Africa and Asia, who are victims of the egotistic Western and Chinese lockdown policies.

What about Zionist people from Norway who would like to come to the country, but their grandma died shortly after she was vaccinated with the Pfizer vaccine, age 84, and who are therefore reluctant to take the vaccine?

What about representatives of the American Jewish Committee or any other NGO or organization or Jewish community, who have an allergy and cannot be vaccinated at all against something like flu-like illness Corona?

What about authors like from Tablet Magazine, the leading intellectual resort for Jewish and Zionist ideas in the US, who dealt with the Corona crisis and are perhaps (who knows?) still reluctant to take any vaccine against such a harmless virus, just because China and its proxies in the Western world promote it?

What about the fact, that the WHO obviously changed the very definition of herd immunity, eliminating the typical and natural herd immunity via infection?

As recently as June 2020, the WHO's definition of herd immunity had properly included "immunity developed through previous infection"—but on October 15, 2020, the WHO effectively erased the eons-long history of naturally-acquired immunity from its website:

'Herd immunity', also known as 'population immunity', is a concept used for vaccination, in which a population can be protected from a certain virus if a threshold of vaccination is reached.

Herd immunity is achieved by protecting people from a virus, not by exposing them to it. (emphasis added)

I fear, not many people in Israel deal with these topics. They seem to be obsessed with vaccination and simply did not learn the lesson of Corona: It is nothing but a "severe Influenza". I saw a young student from the UK last year on a video, and she said that all her friends, all students had Corona. No one became really sick, not one of them. But in Israel 20-year old people need to be vaccinated to go to a club? Are you serious?

The world has gone mad, and this time, Israel seems to be on the forefront. What a shame for Zionism!
